

EsavingSystems™

Environmental Policy

Esaving Systems manufactures innovative products that help reduce energy consumption and carbon emissions, and is committed to good environmental stewardship and social responsibility through both its product design and business practices.

Our environmental policy states that Esaving Systems will:

- Continually improve its business performance and conduct its operations in an environmentally responsible manner.
- Require the company and its employees to comply with all applicable environmental laws, regulations, and other initiatives to which we subscribe.
- Incorporate environmental better practice into our core business plans and management processes.
- Use natural resources responsibly and minimise the environmental impacts of our manufacturing processes and minimise and control its wastes.
- Continue to develop and improve ways to reduce energy consumption and carbon emissions with our products.
- Promote throughout the company strong environmental ethic as part of its culture.
- Communicate openly and constructively with responsible environmental interests, government authorities and the community generally.

This Environmental Policy Statement will be communicated to all staff and made available to the public.
